EDUCATION

Bachelor of Computer Science and Engineering

NATIONAL TECHNICAL UNIVERSITY OF UKRAINE "KPI"

Ukraine, Kyiv

SKILLS

- HTML5
- CSS3/SCSS/SASS
- JavaScript ES6+
- TypeScript v5+
- ReactJS v16+
- NextJS v13+
- Redux/Zustand
- Tailwind CSS
- Bootstrap/Material UI
- GIT
- Rest API
- Gulp/Webpack/Vite
- GSAP
- Figma

LANGUAGES

- Ukrainian native
- Russian native
- English C1
- Spanish B1

PROFESSIONAL SUMMARY

Frontend Developer specializing in React, Next, TypeScript, Web Components and performance-driven UI. Focused on scalable architectures, accessibility standards and seamless API integrations, collaborating closely with UX and backend teams.

PROFESSIONAL EXPERIENCE

FRONTEND REACT/NEXT/TYPESCRIPT DEVELOPER

MadAppGang / May 2025 – Nov 2025

- Built and maintained complex front-end modules for enterprise-grade web platforms using **ReactJS**, **NextJS**, **TypeScript**, **TanStack Query** and **TailwindCSS**.
- Developed **modular, scalable UI components** (tables, forms, dashboards, sidebars, etc.) aligned with **Figma** specs and company design system.
- Implemented **workspace-based architecture**, routing and data-fetching logic to support **multi-tenant environments**.
- Collaborated with backend and design teams to optimize API integrations, improve UX consistency, and ensure high performance across views.
- Enhanced user experience with **dynamic states**, **skeleton loaders** and **responsive layouts** optimized for accessibility and mobile.
- Contributed to CI/CD workflows and **maintained clean Git branching** and **rebase practices** for smooth team collaboration.

FRONTEND DEVELOPER

CALL TO ACTION / Nov 2020 – Feb 2025

- Developed **scalable web applications** and **complex marketing platforms** using **React**, **TypeScript** and **modern frontend tooling**, architecting modular component libraries with **TailwindCSS** and **Material UI** to ensure maintainability and cross-browser responsiveness.
- Built and enhanced a customer portal using **React**, **Next** and **TypeScript**, improving code reliability, SSR/SSG, and developer experience.
- Led the migration of a legacy **jQuery-based CRM** to a modern **React-Redux architecture**, boosting performance, scalability, and maintainability.
- **Improved website performance by 50%** through optimization techniques, refined UI/UX and streamlined collaboration between developers, designers, and marketing teams.
